This Coin Has Seen Eight Decades of U.S. History

Tied with the Liberty Head ten dollar gold piece as the longest issued United States coin is the Liberty Head *five dollar* gold piece – the Half Eagle. Struck from 1839 through 1908, this coin spans eight decades of United States history and eighteen presidents. During its issuance, the United States literally "grew up": gold was discovered in California, the Civil War occurred, Alaska was acquired, the battleship *Maine* was destroyed, and Teddy Roosevelt charged up San Juan Hill.

Unfortunately, countless millions of these historic coins are gone forever, either lost or melted. (Don't forget the millions of ounces of gold in Fort Knox which used to be coins!) Very, very few truly nice and desirable Liberty Head five dollar gold pieces remain for today's collector. But that does not mean you can never own one of these desirable coins! A portion of these beautiful coins escaped destruction and they are available – *now.*

In addition to the Liberty Head ten dollar gold pieces which we acquired from a local doctor and offered in the *Fall Spectacular,* we also were able to obtain an equally small group of Liberty Head five dollar gold pieces. From this group our rare coin experts have divided these mint state pieces into Mint State 60 and Mint State 65. We now offer these choice and lustrous coins to YOU!

Place your order today for an historic five dollar Liberty Head gold coin – a coin spanning the decades of a growing United States.

United States Commemoratives Five Years of Fantastic Growth

During the past five years, United States commemoratives have experienced a fantastic increase in value. Today, they are one of the most popular of all United States coins – and their future still lies ahead. Hard to believe? Well, just look at the following reasons:

1. Low Mintages

Commemoratives all have low mintages, often less than 10,000 pieces. Compare this figure to the *billions* of coins produced today.

2. Unique Designs

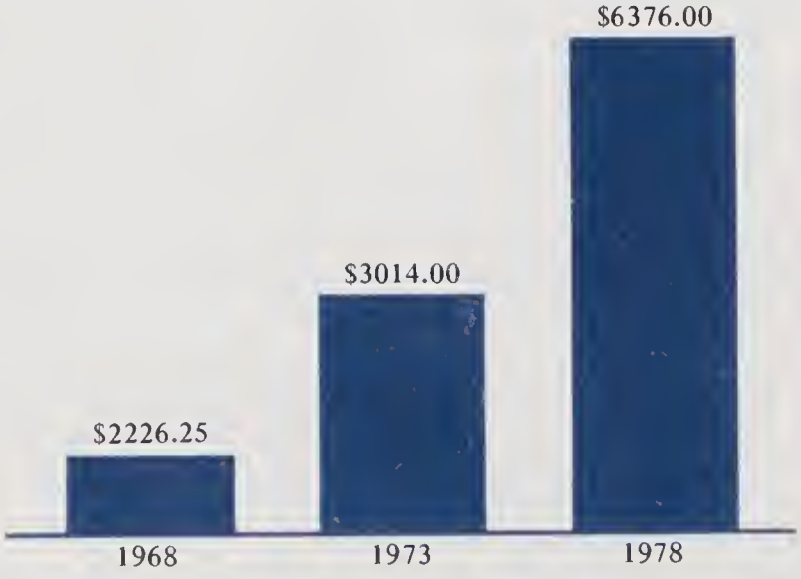
Each commemorative type boasts a unique and beautiful design. A truly amazing and varied collection can easily be assembled.

3. Historical Interest

The history of the United States can be told by a commemorative collection, from the discovery of America to the Twentieth Century.

To illustrate the dramatic increase in value United States commemoratives have experienced, we have constructed a bar graph showing the combined value of all forty-eight different commemorative half dollar types for three years: 1968, 1973, and 1978. You will notice that during the ten years illustrated, the forty-eight piece type set almost tripled in value, while since 1973, it has more than doubled. Certainly, their future is clear.

Combined Value of Forty-Eight Piece Commemorative Type Set



(All prices for the respective years are according to *A Guide Book of U.S. Coins*, Red Book, by R. S. Yeoman.)

On the following two pages, you will find a selection of eight different commemorative half dollars. With the growing interest in these coins, they deserve your careful consideration.

1921 Alabama 2X2: This coin was issued to commemorate the 100th anniversary of the admission of Alabama into the Union. The "2X2" emphasizes Alabama's ranking of being the 22nd state to join the Union. Net mintage is a mere 6,006 pieces.

Big Savings On U.S. North African Invasion Currency

Recently we purchased the holdings of a collector who has been acquiring scarce notes, one at a time, over a period of many years. One of the most important notes he saved is the $1.00 North African Silver Certificate, Series 1935-A.

> **In 1942, in the midst of World War II, the U.S. War Department planned the invasion of North Africa to stop the daring German Field Marshal Erwin Rommel, the famous "Desert Fox". As a protective measure, special U.S. paper money for use by U.S. forces was ordered printed that could be easily identified and declared worthless if large amounts were captured by the enemy. Fortunately, the Allied invasion succeeded and by October of 1942 Rommel's Afrika Korps was retreating . . . today the North African notes are still fully redeemable at their face value. They are *very* scarce and seldom seen.**

The *$1.00* North African notes are very elusive and sell for $42.50 in New condition, when they are available. Series of 1935-A, they are easy to distinguish by their billiant yellow Treasury Seal and blue serial numbers. *Almost Uncirculated* specimens (AU) are worth $30.00 each, but for this issue of the *Collector* you can own a clean, crisp AU for **only $19.50 each!** A small number of EF notes are also available for only $13.50 each. Take advantage of our quantity discount savings on these popular and scarce notes now.

Have you already taken advantage of this offering?

Did you take advantage of the 1917 Type I Standing Liberty quarter offering in the October *Special Price List?* Many collectors did. But in case you didn't, we feel it is worth repeating . . .

In 1916, the United States first issued the beautiful Standing Liberty quarter. But objections were voiced concerning its design and just one year later, in 1917, the quarter underwent a significant and noticeable design change. This resulted in two distinct types: Type I (1916-1917) and Type II (1917-1930). This change can be most clearly noticed in the reverse design. No stars are under the eagle on the Type I quarter, while on the Type II there are three stars. An additional design change can be seen on the obverse where Liberty was given a chain mail vest. Because the 1916 Standing Liberty quarter is, by its own right, a rarity, all the collecting demands for the Type I quarter must be met by the 1917 issue! But because of World War I, people were just too busy to pay much attention to the Standing Liberty quarters. As a result, very few of the beautiful 1917 Type I quarters were saved.

Type set collecting is a very popular and growing field of collecting. Sooner or later, collectors will have to add the 1917 Type I quarter to their collections. And with the growing demand for quality, original and lustrous Mint State 65 Type I quarters like the ones we are offering are disappearing from today's market. Don't wait until it is too late to add one of these attractive quarters to your collection! Order now.

McKINLEY
GOLD COMMEMORATIVE

In 1916, the United States struck an outstanding commemorative coin of unquestioned scarcity – the McKinley Memorial gold dollar. This coin was designed by both Charles Barber and George Morgan and has a net mintage of just 9,977 pieces. The bust of McKinley is on the obverse, and a view of the Memorial building, located in Niles, Ohio, is on the reverse.

All United States gold commemorative coins are scarce, and the 1916 McKinley gold dollar is no exception. This is especially true of those in choice mint state. Gold is a very soft metal and is easily scratched or damaged. Because a large number of these gold dollars were distributed to noncollectors who failed to take the time or effort to carefully handle them, many of the McKinley dollars currently available are just not acceptable to today's fussy collector! But now you can obtain the rarest of the rare – a 1916 McKinley Memorial gold dollar in MS-65.

Fortunately, Paramount has been able to locate several (less than six) 1916 McKinley Memorial gold dollars in brilliant Mint State 65. They have been carefully protected all these years and look as fresh and bright now as they did in 1916! Why not add one of these beautiful coins to your collection today? After all, United States commemoratives is a very popular and fast growing field of coin collecting. The few McKinley gold dollars we have in stock will not last. Now is the time to order yours!

Once Worth $1500 —

But Now Available for $85

Did you know the popular 1903-O silver dollar was once regarded as one of the rarest of all mint state Morgan dollars? According to the 1963 edition of *A Guide Book of United States Coins* (Red Book) by R. S. Yeoman, this coin had a value of $1500! But during 1963, quantities of this coin were released from Treasury vaults and one year later, it listed for $30. Since then, however, the 1903-O silver dollar has increased in value until it is now listed in the 1978 Red Book for more than twice its 1969 value! As a matter of fact, between the 1975 and 1978 editions, this coin's value increased almost 38%!

The demand for silver dollars continues to be as strong as it ever has been, and because we are the largest supplier of mint state silver dollars to collectors, we are subject to this demand more than any other dealer. All too often we have found it very difficult to replace our sold-out stock, especially silver dollars in Mint State 65. That is why we feel fortunate to be able to offer the popular 1903-O Morgan silver dollar in *Mint State 65* – each coin brilliant and beautiful.

We only have a few pieces of this popular coin available, so if you would like to add the 1903-O silver dollar to your collection – a silver dollar which at one time was worth $1500 – order now. In today's market, choice MS-65 pieces like the ones we are offering will not last long.

The "Queens of England" Jubilee Plate $85.00

The Last of Their Kind

The following three items were last offered in the September *Paramount Collector.* We received many orders for them, and each item came very close to selling out. However, we find that four or five examples of each still remain in stock. If you failed to obtain any of these quality items at that time, this may be your *last chance.* Because of their scarcity and desirability, we doubt if we could locate a sufficient quantity to ever offer them again. Please give the following items your careful consideration.

Thank you.

1899 $10 Gold – Just five pieces remain of this popular Mint State 60 issue. Knowledgeable numismatists know that this coin is much scarcer in mint state than its mintage would lead you to believe.

1899 Ten Dollar Gold, Mint State 60 ..... **$210.00**

1937 Buffalo Nickel Roll – This roll proved as equally popular as the 1899 ten dollar gold. Each mint state roll contains forty pieces and has a combined 1978 Red Book value of $440, yet each roll is priced considerably lower. Don't let this one pass by twice.

1937 Buffalo Nickel Roll, Mint State 60 or Better **$295.00**

1951-S Nickel Roll – The 1951-S nickel has the lowest mintage of any nickel struck for circulation in the last twenty-six years. Combined 1978 Red Book value for the forty pieces in this mint state roll is $120, yet you can purchase it for only $75. That's just 63% of Red Book!

1951-S Nickel Roll, Mint State **$75.00**

Uncut Sheets Of 1861 Confederate Treasury Notes— Unlisted In Any Catalogue

The Confederate States of America issued paper currency from 1861 to 1864 in order to finance the War against the Union. With each successive year the CSA notes steadily depreciated as larger and larger amounts were printed. Thus, in general, the 1864 notes are more common than the earlier 1861 issues.

The uncut sheet of $20.00 notes illustrated here is from the Series of Sept. 2, 1861 and portrays an old square-rigged sailing ship and a sailor leaning on a capstan at left. Each note is hand-signed for the Register and the Treasurer of the Confederacy. *As an uncut sheet, this note is extremely rare* – unlisted in the reference works of CSA currency authorities Criswell, Chase or Bradbeer. Like the U.S. Government notes of this period, Confederate notes were cut up into single notes when issued . . . yet somehow a few uncut sheets escaped this fate, and now you have the rare opportunity to own one.

We have seen the $10.00 note of February, 1864 – the most common issue of all CSA notes – selling for $197.50 in uncut sheet form, and that's why we believe this 1861 $20.00 uncut sheet is an *unbeatable* value for only $175.00, the exact price this sheet brought in our April 1977 Rare Currency Auction in New York!

We have only seven sheets to sell, and once these are gone there are no more. Each measures an impressive 14 x 17 inches and is guaranteed to be an attention-getter when framed and hung in your office or home. Order now.

1861 Uncut Sheet of Confederate Treasury Notes, *UNC*. **$175.00**

Silver Coins from Latvia

A 3-PIECE SILVER TYPE SET

One of the most popular fields of world coin collecting is the coinage of countries which no longer exist. There are many such countries: Bohemia, Croatia and Montenegro are just three examples. But among collectors, perhaps one of the best known and most popular is LATVIA.

Latvia, now part of the Soviet Union, borders the Baltic Sea in northeastern Europe. It was an autonomous country during the 1920's and 1930's, and produced several coins of outstanding beauty. These extremely attractive coins are a favorite among world coin collectors and are eagerly acquired whenever located.

We have just acquired a small quantity of all three denominations of Latvian silver coins – the only silver coins ever issued by the Baltic country – and offer them here. Each set is packaged in a specially designed custom hard plastic holder. The three attractive silver type coins included in this set are:

- **1 Lats (23 mm), issued for one year**
- **2 Lati (26 mm), issued for two years**
- **5 Lati (36 mm), issued for three years**

All three coins will grade *Very Fine* or better and feature the Latvian Coat of Arms. The obverse of the 5 Lati coin shows the profile of a young female, symbolic of Latvia. The reverse of the other two coins shows the date and denomination surrounded by a wreath. Each coin in this set will be at least forty-five years old.

Who knows how many silver Latvian coins are left for today's collector? Probably not very many have survived the Second World War or the melting pot. And the original mintages were already unusually small to begin with! For these reasons, we know you would like to add this historic silver set to your collection. Order your set – *today!* Our supply is *very limited.*

3-Piece Silver Latvian Type Set: 1 Lats, 2 Lati and 5 Lati, Mounted in a Custom Hard Plastic Holder, Very Fine or Better, Just $24.50

SOLD OUT IN FIVE DAYS!

$25! That's how much you can save if you act *right now.*

In 1935, the famous Hudson commemorative silver half dollar was issued. This coin instantly proved to be very popular – so popular, in fact, that it took just five days for its entire original mintage of 10,008 pieces to be sold. Hundreds of collectors were disappointed when their orders were returned unfilled.

Henry Hudson's ship, the *Half Moon,* is shown on the obverse. Hudson, famed English explorer, discovered the Hudson River, Hudson Strait, and Hudson Bay. The reverse depicts the seal of the city of Hudson, New York, named in honor of Henry Hudson and whose 150th anniversary is commemorated with this coin. Neptune, a spouting whale, and a mermaid are featured on the seal.

Now, Paramount has available a limited number of lustrous Mint State 60 Hudson commemorative half dollars for a *special savings price.* Regularly available for $540, you can save $25 if you take immediate advantage of this offer. While our small supply remains, you may purchase a lovely Hudson commemorative in MS-60 for just $515.

Commemoratives are very popular, not only for their attractive designs and low mintages, but also because of their historic importance. Many collectors are beginning to turn to this enjoyable field of collecting. You will too, once you see the beauty of the Hudson Commemorative.

Save $25! 1935 Hudson Commemorative Half Dollar, Mint State 60, Regularly $540, Just $515.00

SAVE THIS MONTH ONLY

During this month only, we are offering a brilliant mint state Lewis and Clark Exposition commemorative gold dollar over seventy years old for a special December Dollar Savings price. That's right! If you act today, you may purchase this beautiful 1904-dated coin in Mint State 60 for only $1150. That represents a savings of $100 from its regular price!

The field of United States gold commemoratives is one of the fastest growing areas of coin collecting. Many collectors are attracted to these coins because they offer beautiful and often unique designs, very low mintages, and unquestioned historical importance. But even more important than all these is the fact that United States gold commemoratives are extremely difficult to locate in strict mint state. Over the years, these commemoratives have become lost, melted, damaged, or used for jewelry. This, coupled with their already low mintages and initial distribution to noncollectors who carelessly mishandled them, have made the pride of ownership of mint state gold commemoratives very desirable – and difficult!

This is your opportunity to join the exclusive ranks of those who own mint state United States gold commemoratives. Alone, this would ensure a complete sellout. But when offered with the chance to save $100 . . . well, you can judge for yourself. Be certain to place your order for the 1904 Lewis and Clark Exposition commemorative gold dollar – today!

Its popularity has continued to grow until it is now perhaps the most popular gold coin of its size and is housed in many collections.

NOW is your chance to obtain a beautiful example of this historic coin. We have several pieces in stock featuring the "Young Head" design of Queen Elizabeth II, each struck between 1957 and 1968 and grading AU-55 to MS-60. Because of the limited number available, dates will be of our choice.

1900-O/CC SILVER DOLLAR

Make your silver dollar collection truly spectacular with the addition of the scarce and very popular 1900-O/CC Morgan dollar in Mint State 65. This scarce coin is probably the product of unused reverse Carson City silver dollar dies which were sent to the New Orleans Mint after the "O" mintmark was punched over the partially removed "CC" mintmark. As a result, this distinct O/CC mintmark was created!

The 1900-O/CC dollar is actively sought as part of the Morgan series by many collectors. Though listed in the Red Book, it is seldom offered due to its scarcity. But now you may obtain this Morgan dollar – but only if you hurry. We have managed to obtain only six of these coins, and our rare coin buyers believe it would be extremely difficult for us to locate more than one or two additional pieces. Once these six are gone, it may be a long time before we are able to offer them again. Order today.

A Coin With A Future

The Standing Liberty quarter was struck for just fourteen years and is widely regarded as one of the most beautiful of all United States coins. Unfortunately for today's collector, it was consistently produced in surprisingly low numbers. Even its highest mintage year, 1917, is ridiculously low when compared with the mintage figures of today. For example, the number of Standing Liberty quarters struck in 1917 is equal to just 2.2% of the *total* number of Bicentennial quarters produced.

Long regarded as "common" in mint state, the Standing Liberty quarter has recently come into its own as a scarce and popular coin. This fact can be seen clearly by comparing the "Unc" prices in the 1973 and 1978 editions of *A Guide Book of United States Coins* (Red Book) by R. S. Yeoman. By doing so, you will find that "common dates" have almost *tripled* in value during these five short years.

How high can these coins go? That, unfortunately, is unknown. But one fact is certain; strict mint state Standing Liberty quarters are very difficult to locate. One reason is their high relief. Because this relief increases the chance of these quarters being damaged through mishandling, numerous Standing Liberty quarters are being offered with "slide" or "rub" marks. But no matter what anyone says, Standing Liberty quarters offered as "Unc with rub" *are not* uncirculated!

Paramount is the world's largest international coin dealer and we would do nothing to jeopardize that position. Our strict grading is recognized throughout the coin industry and you can be absolutely certain that any Standing Liberty quarter we sell as mint state *will be* mint state.

During the past few months, we have been accumulating Mint State 65 Standing Liberty quarters and we feel now is the time you should consider adding one of these type coins to your collection. Low mintage, beauty, and past performance certainly make it a coin of the future.

Paramount is proud to announce the recent acquisition of a most spectacular commemorative

THE 1974 COOK ISLANDS GOLD COIN

27 mm
.258 grains
.49 troy ounces
of pure gold

In 1974 two extremely beautiful $100 gold coins were issued by the Cook Islands to commemorate the 100th Anniversary of the birth of Sir Winston Churchill. And magnificent they are. For the Cook Islands certainly didn't skimp – *.49 troy ounces of 22-karat gold, twice as much as in most other modern issue coins!*

Today these coins are practically impossible to locate. Partly due to their beauty and historical significance. But even more so because of their incredibly low mintages. *Only 1,453 proofs and 368 brilliant uncirculated coins were struck!*

Paramount was recently able to purchase *FIVE* of the very scarce brilliant uncirculated $100 coins, an acquisition which was most difficult to negotiate as owners are reluctant to part with such valuable coins. Because the brilliant uncirculated coin has already increased an astounding 480% in value since it was issued three years ago, you can understand the magnitude of owning such a prestigious and valuable coin. We also have a limited number (only 10) of the peerless proof coins available as well.

No matter what your numismatic preference, you'll love these superb low mintage gold coins bearing the proud portrait of Sir Winston Churchill and the Union Jack. Don't delay. This coin is one every wise collector should have in his collection. An historical document, a priceless investment. Send for yours today.

Fantastic Offer On A Truly Outstanding Coin

For the numismatist who appreciates true scarcity coupled with exquisite beauty, we are offering gorgeous original **Mint State 65 Capped Bust type half dollars.** These lustrous coins were issued between 1809 and 1836 and are slightly larger in diameter than current half dollars. This half dollar was designed by talented John Reich, a German bondsman who was freed from servitude by a mint official. A feature of this coin which numismatists find very interesting is that the edge is *lettered!* Instead of the milling found on recent half dollars, the edge of the Capped Bust half dollar reads: FIFTY CENTS OR HALF A DOLLAR. The reason for this lettering was to prevent the clipping or shaving of the edge for the coin's silver.

Early mint state nineteenth century United States type coins are extremely scarce. Every knowledgable numismatist realizes this. After all, how many coin collectors were around 150 years ago? And of the very few mint state coins which were saved, how many could have possibly survived the adversity of the years which followed – the two world wars, the Civil War, the numerous recessions and depressions and the great coin melts?

For a limited time, we are extending to you the opportunity to save $50 over the regularly advertised price of the small number of the original Mint State 65 Capped Bust type half dollars we currently have in stock. That's right! Save $50 with the purchase of one of these beautiful half dollars. But order now. They are certain to be a quick sellout. United States Double Eagles For The Demanding Collector

(Saint-Gaudens Design)

(Liberty Head Design)

The largest United States gold coin struck for circulation was the twenty dollar gold piece (Double Eagle). This coin is larger than a half dollar and contains almost one ounce of gold. It was issued in two basic types – Liberty Head (1850 to 1907) and Saint-Gaudens (1907 to 1932).

The Double Eagle has become very popular with collectors. Not only are people drawn to this coin for its beauty and gold content, but also because of the era it represents – the "good old days".

If you would like to add a beautiful and prestigious coin like the Double Eagle to your collection, now is the time! We have several pieces in stock – both the Liberty Head and Saint-Gaudens types in MS-60 and MS-65. They are accurately graded and fully lustrous. We know you will be pleased!

29 Pieces of Silver

Canadian Silver Dollars, well known for their attractive designs and low mintages, have long been a favorite of World Crown collectors. Struck for circulation between 1935 and 1967, with the exception of the war years 1940 to 1944, these *silver* dollars have recently been enjoying increasing popularity with collectors in the United States.

Consisting of *twenty-nine pieces,* this set includes ten different type coins, six of which are only-year-of-issue commemoratives. Mintage figures of under 500,000 pieces are common. Six coins in this set have a mintage of under 95,000. Of the total number of Canadian dollars issued from 1935 through 1967, *71% were struck during the last five years,* 1963 through 1967. Several dates, especially those before 1950, are very difficult to locate in strict mint state.

We have gone through our vast stock of Mint State 65 Canadian silver dollars and have assembled a few twenty-nine piece dollar sets. Among the coins contained in this set are:

1935 – George V, First Year of Issue, Silver Jubilee Commemorative and One Year Type

1936 – George V, One Year Type

1939 – George VI, Royal Visit Commemorative, One Year Type

1945 – A Key Date, Low Mintage of 38,391 Pieces

1947 – Also a Key Date, Mintage of 65,595 Pieces

1948 – The Number One Key to the Series, Only 18,780 Pieces Minted

1949 – Newfoundland Commemorative, One Year Type

1953 – Elizabeth II, First Year of this Type

1958 – British Columbia Commemorative – the Famous "Totem Pole" Design, One Year Type

1964 – Charlottetown Commemorative, One Year Type

1967 – Canadian Centennial Commemorative, One Year Type

A major concern when attempting to build a collection of Canadian Silver Dollars is condition. Many specimens are available in circulated grades, but true mint state coins are very difficult to locate. In assembling this collection, we have *hand-selected* each coin for its overall high quality and brilliance. Only MS-65 coins will be included.

If you are part of a growing number of collectors who appreciate beauty as well as quality, we know this Canadian silver dollar collection is for *you!*

U.S. GOLD PORTFOLIO

BY THE PROFESSIONALS

Are you willing to let an amateur builder construct your house? Of course not! Yet some people are perfectly content to give their hard earned money to an amateur rare coin "Investment Counselor", hoping this person will construct a sound investment portfolio.

The construction of a house or portfolio is very similar. For both, you need qualified professionals – persons with the knowledge and experience their profession demands. Only these professionals can provide the solid foundation necessary for future construction. This is very important because upon this foundation will rest the walls and roof which provide the protection and shelter you deserve.

Thousands of satisfied customers have turned to Paramount for advice in the construction of their investment portfolios. They know that Paramount, the world's largest international coin dealer, is a leader in the Rare Coin industry. We also have one of the largest numismatic libraries imaginable enabling our professional coin experts to conduct the research so essential in today's investment counseling. It is only logical that so many people have chosen Paramount as the *one* dealer with whom they have trust and faith.

The *Paramount Professionals* would like to put their knowledge and experience to work for *YOU!* That is why we are now offering UNITED STATES GOLD INVESTMENT PORTFOLIOS.

Available in lots of $1000, $2500, $5000, $10,000 and $25,000, each investment portfolio will consist of carefully selected United States gold coins. The minimum grade of *any* lot will be EF-40 while many will be Mint State 60 or better. This is to provide the greatest opportunity for investment return as experience has shown higher grade coins appreciate in value more rapidly than lower grade. No lot will contain damaged, or otherwise undesirable pieces. Further, each lot will be specially priced so the combined cost of all the coins in any lot will be *more* than the single lot price you pay.

As an example, we have illustrated a typical $2500 portfolio similar to those offered three years ago. Next to their 1975 value, we have shown their 1978 value. (Please note that for price comparison, we have listed the values shown in the 1975 and 1978 *Guide Book of United States Coins*, commonly referred to as the Red Book.) You will notice the entire Investment Portfolio increased 107% in only three years! (While this represents a noticeable increase in just three years, we believe gold coin portfolios should be purchased for long term investment. A *minimum* holding period of five years is recommended.)

Low Mintage Canadian Silver Dollars--

A Six-piece Commemorative Type Set

The Canadian silver dollar series is known by collectors throughout the world to contain many beautiful and desirable coins. Included in this series are six 80% solid silver crown-size commemorative dollars which were struck between 1935 and 1967 – each bearing a distinctive design and issued for just one year. But Canada has not issued an 80% solid silver commemorative dollar in ten years! That means growing world demand can only be satisfied with Canada's earlier, low mintage issues! And you can well imagine what this increasing demand is doing to the availability and price of these commemorative dollars.

We have been fortunate to obtain one roll (20 pieces) of each of the six commemorative dollars Canada issued between 1935 and 1967. Each coin grades Mint State 65 and has been hand-mounted into a custom hard plastic commemorative type set silver dollar holder. The six coins included in this set are:

- 1935 – George V, Silver Jubilee Commemorative
- 1939 – George VI, Royal Visit Commemorative
- 1949 – George VI, Commemorates Entry of Newfoundland into the Confederation
- 1958 – Elizabeth II, Famous "Totem Pole" Design, British Columbia Commemorative
- 1964 – Charlottetown, Commemorates the Charlottetown Meetings which lead to Canadian Independence
- 1967 – Popular "Flying Goose" Design, Issued to Commemorate Canada's 100th Anniversary

It is interesting to note that *combined* mintages of the above six coins is quite small. As a matter of fact, over *ten times* as many Eisenhower dollars were struck in 1971, over *fourteen times* as many in 1972! Naturally, coins such as these Canadian silver dollars are not available forever. That is why we say – Order Now.

Six-Piece Canada Silver Dollar Commemorative Type Set, Mounted, Mint State 65, Only $175.00

THE DOOMED DOLLAR IS THE END NEAR?

It is entirely possible the United States may have a smaller, circulating dollar coin in the near future. This new coin would take the place of the familiar Eisenhower dollar, thus ending a glorious era of numismatic history which began with the issuance of the first United States silver dollar in 1794. If this happens, the Eisenhower dollar could conceivably become a very popular collectors item and be in great demand.

The Eisenhower set we are offering consists of 26 coins – one of every date and mintmark including *all* silver and proof issues from 1971 through the Bicentennial year of 1976. Although this set covers just six short years (1971-1976), several desirable and low mintage coins are included. As a matter of fact, sixteen (16) of the dollars included in this set were never issued for circulation! The *total* mintage of these sixteen coins is *less* than one third of those struck for circulation in just one year, 1972!

The twenty-six coins comprising the 1971-1976 set we are offering are shown. Their mintage figures are in parentheses.

1971	(47,799,000)	1974	(27,366,000)

This Quarter Belongs in Your Half Dollar Collection.

QUESTION: When does a quarter belong in a half dollar collection?

ANSWER: When it is an Isabella quarter and the half dollars are United States commemoratives.

If your commemorative collection is lacking the Isabella quarter, then you are missing one of the most important of all United States commemoratives. Why? Because the Isabella quarter is only one of two commemorative types issued before 1900 (the other being the Columbian half dollar) and is the only United States coin which features a foreign monarch (Queen Isabella of Spain).

Mint state examples of the Isabella quarter are very difficult to locate. Many of the so-called "Uncs" available today are merely mishandled or slightly circulated coins which have been cleaned or polished to *resemble* mint state. *Don't be fooled into purchasing one of these inferior coins when you can purchase a strict mint state specimen from Paramount!* The Isabella quarters we offer are completely original. Some are brilliant, others are toned to a lovely steel gray, while most have just a hint of toning.

If you collect United States commemoratives, you should have the Isabella quarter. After all, your collection can't really be complete without it.

A Royal Wedding Commemorative In Sterling Silver

Are you prepared to take advantage of the possible worldwide collecting surge for coins relating to the reign of Queen Elizabeth II of England? 1977 is the twenty-fifth anniversary of reign for Elizabeth. This historic event has already caused thousands of collectors around the world to turn their collecting interests to this subject. As additional commemorative coins are released by the Commonwealth nations, other collectors are certain to join. Where will *you* be when this happens?

Surprisingly, this is NOT the first important twenty-fifth anniversary Queen Elizabeth II has celebrated! A more intimate anniversary was marked in 1972 when she and her husband, Prince Philip, observed their twenty-fifth wedding anniversary. And what could be more fitting for a Queen's silver wedding anniversary than a specially designed only-year-of-issue sterling silver wedding commemorative?

United States Commemorative Gold!

For the Specialist

While most collectors realize the United States issued silver commemorative coins, many are surprised when informed the United States also issued commemorative coins struck in gold! These gold commemoratives were issued between 1903 and 1926 and form one of the most interesting of all U.S. series.

The complete set, as usually collected, consists of just *11 pieces:* nine $1 gold coins and two $2½ gold coins. With the exception of the 1926 Philadelphia Sesquicentennial quarter eagle, all commemorative gold coins have mintages under 20,000 pieces. The 1922 Grant has a mintage of only 5,000 pieces, the lowest of the series. This means that *no more* than 5,000 complete 11-piece sets can exist! Naturally, over the years, pieces have been lost or destroyed, so the actual number of possible sets is *much less.*

As a result of their low mintage and popularity, these gold coins were widely distributed and many became the property of people who were not collectors. Therefore, quite a few of the coins were mishandled and can no longer be considered mint state. Because of this, choice mint state examples are difficult to locate and are eagerly collected.

If you would like to start, or add to your gold commemorative collection, think of Paramount. We maintain one of the largest inventories of mint state commemorative gold coins in the United States and are certain you will be pleased with our conservative grading and prompt, efficient service.

An Exclusive Offering of 1976 TRINIDAD-TOBAGO PROOF ISSUES

But Hurry. . .

Only 56 Coins and Sets Available!

Not only did Trinidad-Tobago offer a magnificent proof set featuring TWO sterling silver coins in 1976, but it also issued its *FIRST GOLD COIN EVER!* Certainly an historic numismatic achievement!

We now have available an extremely limited quantity – only 56 items in all – of the 1976 proof coinage from Trinidad-Tobago.

These sets and coins have been extremely popular issues with collectors and it's easy to see why. They all have extremely low mintages and extremely reasonable prices! In fact, you may never be able to secure these coins at such low prices again!

• EIGHT-COIN PROOF SET. The 1976 Trinidad-Tobago Proof Set bears for the *first time* the new legend, "Republic of Trinidad-Tobago". Highlighted by two impressive solid sterling silver crowns, plus six other fascinating coins, the set claims a mintage of only 10,099. Only 27 available.

• $100 PROOF GOLD COIN. This proof gold coin celebrates Trinidad-Tobago's new status as a Republic and has the added distinction of being one of the most beautiful modern coins ever issued. The obverse bears a sculptured study of two Scarlet Ibises in flight. The Scarlet Ibis is national bird of this Caribbean nation. Mintage: 28,743. Sorry, we have only 2 of these beauties available.

• $10 PROOF SILVER CROWN. For centuries the islands of Trinidad-Tobago have accommodated seafarers. Aptly enough, an ancient mariner's map is depicted in glorious detail on the $10 crown. An astoundingly low mintage of 13,403 – of which only 3,304 were packaged singly. You must order immediately . . . we have only 18 for purchase.

• $5 PROOF SILVER CROWN. A most popular coin with collectors, the 1976 $5 proof coin also portrays the brilliantly plumaged Scarlet Ibis. Only 10,814 were minted and of those *only 715* were packaged singly. It's no wonder we have only *NINE* of these beautiful crowns available.

U.S. GOLD TYPE SETS . . .

Don't Wait Any Longer

United States gold type sets are in demand! And as this demand increases, choice mint state specimens are becoming even more difficult to locate. If you have not added a gold type set to your collection – don't wait any longer!

Due to several recent purchases, we can now offer complete 8-piece United States gold type sets in Mint State 60. This set contains the $20, $10, $5 and $2½ coins with the Liberty Head design. Also included is a Saint-Gaudens $20 gold piece and the Indian Head design $10, $5 and $2½ coins. The Saint-Gaudens $20 gold coin is considered by many to be the most beautiful coin ever issued by the United States. The Indian Head $5 and $2½ coins are unique as they are the only U.S. coins to have an incuse design as opposed to raised lettering and devices as found on all other U.S. coins. The Liberty Head design is well known for its classic beauty. The 8-piece gold type set is available in Mint State 60 for just $1750.

For the advanced collector or serious investor, we can also offer a Deluxe 12-piece gold type set in Mint State 60. This exquisite set contains the eight coins already mentioned *plus* three different types of the $1 gold piece *and* a $3 gold piece! Both the Type I (Liberty Head) and Type III (Large size, Indian Head) gold dollars are scarce in Mint State. The Type II (Small size, Indian Head) gold dollar is *extremely* rare in mint state. Almost as equally rare is the $3 gold piece. It is one of the most popular and elusive coins in this mint state set. This rare and desirable 12-piece gold type set is available in Mint State 60 for just $5675.

"Fabulous Fifties Proof Set Package"

Nostalgia – the "good old days" when life was simple and easy.

Much has been written in recent years about nostalgia and the "Fabulous Fifties". But was life any better twenty years ago? Perhaps it was. But then again, perhaps not. One thing is certain though. There were not as many coin collectors as there are now! This is most quickly seen in proof set mintage figures. While proof sets issued in recent years have mintages of two or three million, less than one million proof sets were sold in eight of the ten years comprising the "Fabulous Fifties"!

We have put together a "Fabulous Fifties Proof Set Package" consisting of one *government sealed* proof set from the following four years:

• 1956 • 1957 • 1958 • 1959

Two of these sets (1956 and 1958) have mintages of under one million. Combined, these four sets still have a total mintage less than that projected for the 1977 proof set (4 million)! And unlike recent proof sets, those offered in this package contain coins made of 90% solid silver!

If you would like to add a little nostalgia to your coin collection, then the "Fabulous Fifties Proof Set Package" is for YOU!

Early 1960's Proof Set Package

1962 government sealed proof set.

The early 1960's – the days of John F. Kennedy, Project Mercury, the Peace Corps and the Twist. While certainly not "days of old", the early 1960's do represent a time when many of today's coin collectors had not yet started their collections. And that's a shame, because several events of numismatic importance took place during that time. Included among these events were:

- the last 90% solid sterling coin issued by the United States
- the last of the Franklin half dollar
- the first of the Kennedy half dollar
- the *only* 90% solid silver Kennedy half dollar (1964)
- the last time United States proof sets were struck at the Philadelphia Mint
- the discovery of the 1960 Small Date Lincoln cent which rocked the numismatic fraternity

We have assembled an "Early 1960's Proof Set Package" consisting of one *government sealed* proof set from each year, 1960 through 1964. Also included in this package is the scarce and very desirable 1960 *Small Date* proof set, also government sealed. (This set is differentiated from the standard "Large Date" 1960 proof set by the size and shape of the numerals of the cent.) This proof set package reflects *each and every historic numismatic event listed above!*

Six different United States proof sets: 1960, 1961, 1962, 1963, 1964, and the scarce 1960 Small Date, each relating to the early 1960's and its numismatic history. An unbeatable proof set package. Order now while this package is still available.

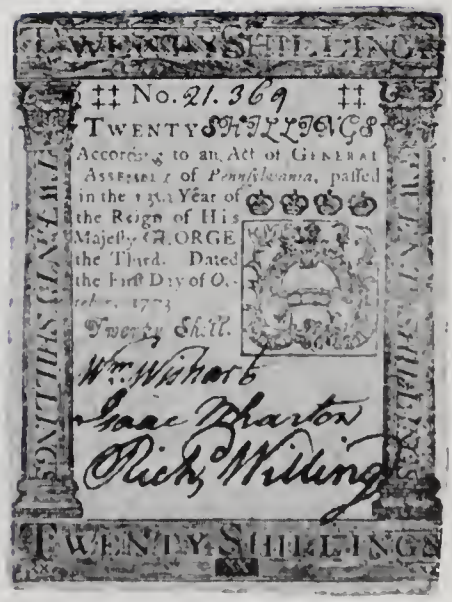
Colonial Currency Over Two Centuries Old This Month Only $33.95

In the days before the people of America united into one nation, individual colonies issued their own paper money. At this year's American Numismatic Association Convention in Atlanta we were fortunate indeed to obtain a small, *choice* collection of notes from the Colony of Pennsylvania. They are dated the first day of October, 1773, and range in value from 5 to 50 Shillings (1 to 10 Crowns). Printed in red and black, the back design portrays a colonial farming scene with the admonition: "TO COUNTERFEIT IS DEATH". Each note bears the authentic hand-written signatures of our forefathers, men such as Joseph Mifflin, Benjamin Marshall and Mordecai Lewis.



These scarce and tremendously historic notes belong in every collection, but rarely will you have the opportunity to own one. Act now – only a few available.
